

JIM STONE TALKS TO BIG TOBACCO BUYERS

**Finds Manufacturers Ready To
Talk Business With Burley
Association**

Lexington, Dec. 8.—There will be no trouble in selling the tobacco pledged to the Burley Tobacco Growers' Cooperative Association, in the opinion of James C. Stone, chairman of the committee on temporary organization of the association, who returned today from a trip on which he conferred with the leading manufacturers of the country as to their attitude.

He said that as a result of his visits and talks with the manufacturers, he was convinced that there was no reason why the relations between the manufacturers and the representatives of the association should not be mutually satisfactory.

"As chairman and representative of the committee on temporary operations," said Mr. Stone, "I went to see the officials of the principal tobacco manufacturers to learn what their attitudes were toward the association. I was authorized to say to them that we wanted to co-operate with them as our best customers, and the association desired to learn what their attitude toward the co-operative marketing system was going to be.

"I found generally a very friendly cooperative spirit among the manufacturers. They seemed disposed to co-operate with us fully. I assured them that the association would be conducted on sound business principles and that all the manufacturers would be treated alike by the association. Their position, generally, was that they would buy Burley wherever it might be offered for sale, but that they would not discriminate against the association.

"I am convinced that there will be no trouble at all in selling the tobacco pledged to the association and I believe that the manufacturers will take every pound of tobacco we have and be better satisfied with the system of buying it than the old public auction plan. I did not find an unfriendly spirit anywhere I went and was greatly pleased to find that the manufacturers intend to treat the association as they would any other holder of tobacco and that there is nowhere any disposition to assume an attitude of resentment against the organized growers.

As the manufacturers have their own drying plants, I found that most of them desire to purchase their requirements in winter order.

"You can say for the association," said Mr. Stone, "that there is no disposition on our part to get at cross-purposes with our best customers and that, so far as I was able to observe and to learn through my talks with them, no tendency on their part to do anything other than give us all the consideration to which we are entitled when the time comes to market our tobacco."

The association will have more than 52,000 members and will control close to 200,000,000 pounds of tobacco when the books are finally closed Saturday night, if

the same rate of gain reported from the 61 organized counties in the district since the reopening of the books November 26 is maintained until the close at midnight Saturday according to the estimate of Joseph Passonau, organization manager, at headquarters, today.

"Two additional counties in Ohio are showing a disposition to come into the association and we expect that a considerable number of contracts will be signed by growers of Gallia and Lawrence counties in that state, as well as from the counties of Clermont, Brown and Adams," Mr. Passonau said. "Indiana also is adding to her already large signed acreage."

The meeting of the association warehouse committee, which was to have been held today, was postponed until Friday morning at 10 o'clock, when Chairman Ralph M. Barker and his associates will consider plans of arriving at the value of the property which the association may take over or lease from the warehousemen.

ANDERSON SHERIFF IN WHISKY MIX-UP

Lexington, Dec. 8.—A federal warrant was issued here Wednesday for the arrest of Emanuel Griffy, Sheriff of Anderson county, charging him with conspiracy to violate the Volstead act.

The warrant is the result of the seizure November 15 of 350 cases of Belle of Anderson whiskey which was being removed from the distillery at Clifton, Anderson county, on the Kentucky river.

Records found in the home of the negro caretaker, Joe Saunders, at the time of the seizure revealed that the Sheriff had purchased whiskey for \$3,500 according to State Prohibition Officer Sam Collins. He purchased it from the men who were arrested at the time of the seizure, he said.

"We have affidavits from several reliable Anderson county officials which will implicate a number in connection with the whiskey removal," Mr. Collins said. Sheriff Griffy is an Anderson county farmer. He never held public office before the election four years ago, and retired in January. The warrant was issued before United States Commissioner Charles N. Ward.

38 GOBS HAVE CLOSE CALL IN SUBMARINE

(By Associated Press)

New York, Dec. 8.—Thirty men narrowly escaped death in the submarine S-48 which sank in 70 feet of water off Bridgeport, Conn., last night during a nose-dive test. The crew were submerged nearly 12 hours when the vessel lightened and the men climbed out through a torpedo tube. They were rescued by a passing vessel and brought to a hospital here. They were overcome with chlorine gas and are said to be in a serious condition.

The story of their rescue is remarkable. Fifty-one men sat on the submarine's nose for 12 hours. Meanwhile they set fire to matches which attracted a passing vessel and they were taken off.

BURLEY DRIVE IS PROVING BIG SUCCESS

Statement From Local Committee Enthusiastic Over Prospects For Pool

The business men of Richmond have the thanks of the workers in the burley canvass for their great assistance to us on Wednesday.

It was one of the biggest days of the week for 165,000 pounds of tobacco was signed on that day and many promises for signatures later on in the week. We have delegations here from Fayette, Bath and Fleming counties who are helping us wonderfully, and the drive is proving a great success.

By the time this article goes to press the total pledges to the Burley Growers' Association will exceed 4,000,000 pounds in Madison county.

Mr. J. C. Stone tells us that he has just returned from Winston-Salem, N. C., and that manufacturers offer to the association their fullest co-operation and signified their desire to buy the tobacco just as fast as the association can prize and make ready to ship.

The tremendous saving in handling charges should net the grower much more for the tobacco sold by the association than that sold over the loose leaf floor and the full cash payment made to the member in a short time after the close of the market.

ALVERSON SELLS HIS FINE BOURBON FARM

News comes from Paris that Mr. and Mrs. Jesse M. Alverson sold to James H. Thompson, of near Paris, Bourbon county's representative to the legislature, their country home, located on the Jackstown pike, formerly known as the Hilber farm, and one of the best improved farms in the county. It contains about 219 acres, and the reported price paid is \$48,000, or \$220 per acre. It is understood that Mr. Thompson purchased the farm for his son, James Thompson, Jr., who with his wife, will move to the place about March 1, 1922.

The farm was formerly owned by the late P. J. Millett, who spent thousands of dollars in improvements. It has changed hands a number of times since the heirs of Mr. Millett sold it to W. H. Whaley, a few years ago, and during the war it was sold at the reported price of \$325 per acre, but Mr. Alverson took it back when the buyer could not meet the notes. Besides the commodious two-story brick residence, the place is well supplied with tobacco barns, stock barns and other necessary buildings. Mr. Alverson has many friends at his old home in Richmond.

Danville Mayor Re-elects Himself By Voting For Himself

At the election of the city appointive officers in Danville, by the new council Tuesday night, C. N. Smith got six votes, and W. O. McIntyre, retiring mayor, presiding over the session got six. McIntyre then broke the tie by voting for himself and was elected for another four-year term. He is one of the editors of the Danville Advocate and has many friends over the state. He has made a progressive mayor, working for improvements, paved streets and to make his town a live one.

11 SOLDIERS WERE HANGED IN FRANCE

(By Associated Press)

Washington, Dec. 8.—Eleven members of the American Expeditionary Forces were hanged in France by court martial. Colonel Walter E. Bethel, assistant judge advocate general of the army, testified today before the Senate committee investigating charges by Senator Watson, of Georgia, that American soldiers were hanged without trial in France. Bethel told the committee 62 death sentences were imposed. General Pershing ordered 11 executions and disapproved the sentences of 11 cases. The others were reviewed at Washington and the sentences were changed. Those executed, he said, were convicted of rape or murder. Six were negroes.

Notre Dame May Play Centre At San Diego

Danville, Ky., Dec. 8.—Cen re College foot ball team will make the trip to the Pacific coast regardless of the University of California's refusal to accept the East vs. West tournament date. Ten days ago the San Diego management deposited \$16,000 in a Danville bank as a guarantee. It is probable that in the event a strong western team cannot be obtained to meet Centre, a formidable opponent from the East will be invited. The names of Notre Dame and Cornell have been suggested as possible choices.

OLDHAM NAMED TO OPPOSE WALLACE

**Democrats Put Candidate In
Field In Special Senatorial
Election December 24**

Democrats and republicans of the 29th senatorial district nominated candidates for the state senatorship here Wednesday afternoon. Gov. Morrow has called a special election to be held December 24th to fill the vacancy in the senate caused by the resignation of Senator Clarence Miller of Irvine.

William Wallace, son of Attorney C. C. Wallace, of this city and nephew of State Treasurer J. A. Wallace, was nominated as

Nominated For State Senate

Col. R. C. Oldham

the republican candidate. Mr. Wallace has been practicing law on Judge E. C. O'Rear's staff at Frankfort for over a year, but still claims Madison county as his home.

On account of the overwhelming republican majority in the five counties of the district—Madison, Estill, Jackson, Rockcastle and Owsley, it was no thought at first that the democrats would put a candidate out. However, party leaders took cognizance of the remarkable turnover of a number of hitherto reliable republican counties had made in the recent election, and decided that candidate should be named. It took a man of political courage to face the 5,000 or 6,000 republican majority, and candidates were scarce. Col. R. C. Oldham, of Richmond, who made a sensational race for lieutenant governor a few years ago, finally volunteered "to be the goat" and accepted the nomination.

W. O. Mays, as chairman of the Madison county republican committee, presided over the meeting of the republican committee. J. J. Greenleaf, chairman of the Madison democratic committee, presided over the meeting of the democratic chairmen of the district, a majority of whom were represented at the meeting here.

BARKER'S DEATH SEEMS CLEARED UP

Mary Austin, negro, 42, and her uncle, Joe Miller, 50, were arrested in Fayette county Wednesday by Deputy Sheriffs J. W. Marshall, Frank Hall and Forrest Stivers and taken to the Fayette county jail, where they are being held in connection with the death of Frederick Dunlap Barker, whose body was found Tuesday afternoon in his home eight miles east of Lexington on Todd's road.

Mr. Barker, formerly worked for F. H. Gordon in the turkey business here.

The Austin woman made a statement to Deputy Sheriff J. W. Marshall and signed it with her daughter, Lillian Berryman, as witness, in which she told of the manner of the killing and stated that Joe Miller fired the shot that killed Barker. Mr. Marshall said in the confession, the woman stated that Barker came to her home Saturday night in a drunken condition and fired his pistol while in the house. She said she was afraid not to shoot her or Miller and attempt with him and before she had time to take the gun away from him. While she was screaming and crying in gaining possession of Barker's pistol, Miller shot her. She said she was afraid to shoot him and before she had time to take the gun away from him. While she was screaming and crying in gaining possession of Barker's pistol, Miller shot her. She said she was afraid to shoot him and before she had time to take the gun away from him.

She then helped Miller carry the body a quarter of a mile or more to Barker's home, where they placed him on the bed and the alleged confession says. She said that Miller told her not to tell who shot Barker or anything about it.

DECEMBER 10

Tobacco Growers: This notice is to remind you again that on Saturday night the books of the Burley Tobacco Growers' Association will close for signatures. You cannot join after that date. We have the positive statement of our leaders that the door will not open again for this crop. Many are signing with our workers as they go over the county, but necessarily we must travel by automobile, making it a physical impossibility to get to every grower's farm at this season of the year, but the secretary's office over the Madison National Bank is open and clerks there to receive you. This office will close its books for contracts the night of December 10th, Saturday of this week. After it is too late don't say you were not given an opportunity to sign.

T. S. BURNAM, County Chairman.
